OT-808: Made for gossip!

The OT-808, the latest addition to the ALCATEL family, successfully combines beauty, design and style, while offering users a fresh, fun social networking experience. With its unique design, the OT-808 breaks away from standard handhelds, making it more desirable than ever.

The OT-808 is aimed at young female web addicts determined to stay connected to their community whenever and wherever they go. Easy to use with its QWERTY keyboard, and fully featured, it is bound to quickly become a must-have for the new totally girly generation.

Who said technology can't be beautiful? A unique design!

Available in glossy pink and dark chrome, the OT-808 is an eye-catcher with its original look. This ultracompact square device fits neatly into the hand. Its clamshell design means you can chat with your friends away from prying eyes... This new utterly feminine phone can keep a secret; once it is closed and popped into a handbag it could pass for a beauty accessory.

The ALCATEL signature: easy access

The OT-808 has two screens: a 2.41 inch (320x240) screen inside as well as a 1.1 inch OLED display on the outside. When opened, users can effortlessly chat with their friends using its full soft-touch Qwerty keypad. Now a trademark characteristic of the ALCATEL brand, the menu offers rapid, smooth browsing even for first-timers. Surfing the web, accessing favorite applications and instant messaging are all truly intuitive.

An ultimate Social Networking experience

Fitted with an EDGE connection, the OT-808 provides you with central access to mailboxes, instant messengers and social networks: it's the ideal way to stay in touch with your community. This multimedia phone is the answer to a growing demand from Generation Y: Social Networking.

Its widgets mean you can log on to Facebook or Twitter in just 2 clicks. Access to menus and applications can be customized from the first level for a personal touch. Express yourself!

Other features such as shortcuts to news and weather applications set the OT-808 apart. And for utmost convenience, the OT-808 boasts a talk time of 9 hours and MP3 or radio playback time of 35 hours!
